► Rodent Control ► Insect Control ► Plant Protection ► Insect Repellents ► Decontamination Kits

Concentrate Contains: cypermethrin 25% w/w, tetramethrin 10% w/w, piperonyl butoxide 20% w/w and pyriproxyfen 1% w/w.  
Use biocides safely. Always read the label and product information before use.

**NEW  
250ml NOW  
AVAILABLE**

- Fast flushing and knockdown action
- Rapid kill
- Reliable and long-lasting residual control on all surfaces
- Formulated to tackle metabolic and genetic resistance

# Cimetrol Super EW

**Contains:**

- 25% w/w cypermethrin
- 10% w/w tetramethrin
- 20% w/w piperonyl butoxide
- 1% w/w pyriproxyfen.

Formulated as an oil-in-water emulsion, our award winning Cimetrol Super allows rapid access of the active ingredient to the target pest while providing long lasting residual control.

This advanced formulation has the multi-action properties of both of its predecessors, Cimetrol and Stingray. Cimetrol Super contains a Type I pyrethroid for fast flushing and knockdown, a Type II pyrethroid for rapid kill of the insects, a metabolic synergist to bypass insect metabolic resistances, and an Insect Growth Regulator (IGR), demonstrating a completely different mode of action, to ensure that any stubborn populations never get to pass their resistant properties onto the next generation.

For use inside all domestic, commercial and industrial premises including kitchens, hotels, dormitories and sleeping areas, hospitals (excluding occupied wards), military establishments and food storage and processing areas.

Cimetrol Super RFU is a professional ready for use water-based spray to control bedbugs, fleas and other crawling and flying insects. Approved for use on mattresses and soft furnishings, the unique 300ml bottle delivers a fine and continuous spray at any angle and even upside down, while the new 5L flagon gives the flexibility to use what you need and return any unused liquid to the bottle after treatment, minimising waste and disposal.

Cimetrol Super RFU is ideal for use alongside Cimetrol Super concentrate for those difficult to reach areas and on mattresses.

Cimetrol Super RFU contains both a synthetic and natural pyrethroid, in addition to the insect growth regulator pyriproxyfen, for use against flying and crawling insects including ants, fleas, bedbugs, mites, flies, wasps, mosquitos and spiders.

**NOW  
APPROVED  
FOR  
SPIDERS**

- Fine mist**  
High-quality mist like spray spreads evenly on all surfaces.
- Prolong spray**  
A fixed output of 1.20cc per second is dispensed consistently from first to last drop.
- Continuous spray**  
Repeated actuation produces an endless spray allowing quick and easy coverage of large areas.
- Upside down**  
The bag-in-bottle allows 360 degree spraying for those areas which are difficult to reach.
- Airless**  
Complete air isolation enhances formulation integrity.
- Every last drop**  
No wastage with 98%+ liquid evacuation

# Cimetrol Super RFU

**Contains:**

- 0.1% w/w cypermethrin
- 0.01% w/w pyriproxyfen
- 0.05% w/w chrysanthemum cinerariaefolium extract\*
